THE INAUGURATION.

Theodore Roosevelt and Charles W. Fairbanks were inaugurated in Washington Saturday as President and Vice President of the United States. The inauguration ceremonies proper were brief and impressive and the inaugural parade exceeded all previous parades in point of numbers and in unique attractions. It is estimated that 200,000 visitors were attracted to Washington. The line of march was more artistically decorated than ever before. No street in the city was without flags. Palms were a feature of the decorations and along each side of Pennsylvania avenue were noted historical figures in great numbers from the St. Louis Exposition.

The festivities of the day closed with the inaugural ball at the Peninsula building and a display of fireworks. A feature of the inaugural ball was the presence of a trained orchestra of 500 voices. The exhibition of fireworks was the most elaborate ever given at the National Capital.

ROBBERY ATTEMPTED.

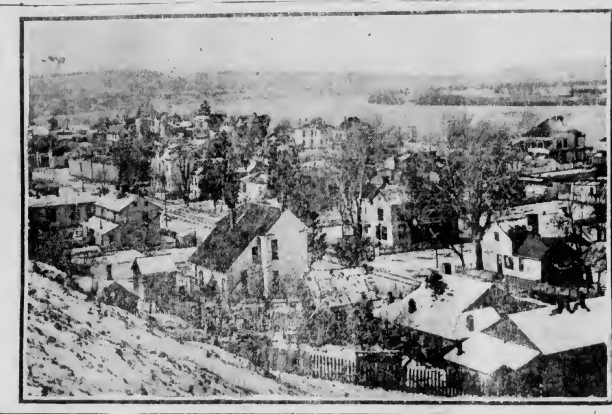

An unsuccessful attempt was made early this morning to loot the Kentucky and Indiana Bank at West Point, Ky., but the burglars left without taking any booty. Entrance was gained by forcing a side window. The burglars used a crowbar in forcing the door of the vault, but did not attempt to open the screw-door safe, which contained the bank's cash, amounting to about \$1,800.

There is no clew as to the identity of the burglars. The Louisville authorities have been requested to watch for suspects. -Friday's Louisville Times.

PARTIAL VIEW OF THE WEST END OF CLOVERPORT.

GREATEST REVIVAL IN TWENTY YEARS.

Not Since Rev. Keene Saved 150
Souls Has Cloverport Been
So Stirred as at the Present.

Not since Rev. John S. Keene won 150 souls to Christ, twenty years ago, has Cloverport been so stirred by a religious revival as by the one that has been in progress at the Methodist church for the past two weeks. About seventy-five persons have been converted and reclaimed, and of these about thirty have given their names to join the Methodist church. Fourteen the Baptist and one the Christian church. These are the specific results. A quickening of conscience and a desire to live a better life on the part of hundreds of persons, and the attendance of scores who have not entered the portals of any church for years, - these, and yet they are not all, are the general beneficial results of Rev. Newsum's great preaching. Interest in the revival, shown by increase in attendance and conversions, is growing with every service, and the revival may continue until next Sunday.

The meeting at the Henderson Route shops last Wednesday afternoon, the meeting for children Sunday afternoon at the Methodist church and the special meeting for men Sunday afternoon, these being special services, were all well attended and very interesting. Every case of Rev. Newsum's forceful, pointed and appealing sermons has been heard by a large and attentive congregation. The congregation Sunday evening was the largest during the revival, it being estimated that 500 people were present.

Fervent co-operation on the part of members of the Methodist, Baptist and Presbyterian churches has helped to make the revival a general one. Rev. Newsum, on leaving here, will begin a revival at the Methodist church at Hawesville.

WANTS SON INDICATED.

J. B. Jackson Has Proof Son Did
Not Spread Smallpox.

J. B. Jackson, of Tarfork, claims that threats have been made against the life of his son, Eli Jackson, by persons who claim that the latter, who had smallpox while at Evansville last December, ran away from that city and went to Tarfork and caused his brother, Marion Jackson, to have the disease, making a quarantine, and the inconveniences connected with it, necessary. Mr. Jackson has several letters from Evansville physicians to the effect that his son was in the proper condition to leave that city.

Young Jackson returned to Tarfork, on December 25, from Evansville. His brother, Marion Jackson, was taken ill with smallpox in February. The latter had been wearing a coat that belonged to the former while he was in Evansville but which had been disinfected by the authorities. The father is of the opinion that the coat spread the disease, in which case his son is vindicated, as the coat was disinfected by the authorities.

Young Jackson was persuaded to leave home and go to Evansville by a citizen of this county whom, his father says, he intends to sue, if the matter is not compromised.

BILL MACY CAPTURED.

Man Who Escaped From Owensboro
Jail Arrested At Garfield.

Deputy United States Marshal C. T. Nichols, of Owensboro, captured Bill Macy at Garfield last Friday night. Macy was one of several men who escaped from jail at Owensboro last year by sawing the bars from a window. He was incarcerated on the charge of retelling whiskey without a license.

The officers have been on the track of Macy for some time. Several times Marshal Nichols has almost succeeded in capturing him but could not do so without firing at him. The night of the capture Macy was found at his home by Marshal Nichols and an assistant. He refused to give himself up until the officers threatened to break in the door.

Marshal Nichols was here Saturday enroute to Owensboro with his prisoner, having driven overland from Garfield.

LIFE AT END FOR AUGUSTUS GIBSON.

Head of Well-Known Timber Firm
Of This City Dies As Result
Of Blood Clot In Right Leg.

Augustus Gibson, founder and head of the well-known timber firm of Gibson & Sons, died last Wednesday afternoon at 12:35 o'clock at his home in this city. Death was due to an aneurism, which was caused by a blood clot in a blood vessel of the right leg. Mr. Gibson was taken ill with lagraisse on February 18. His condition was not critical until February 24, when the blood clot was formed.

Mr. Gibson was born in Trimble county in 1818. He left Trimble county when a young man and settled in Hancock county. Afterward he located near Lodi, Brecklenridge county. He engaged in farming and the timber business at Lodi and at Sample, where he lived a few years before he came to this city in 1862. At Lodi, on December 1, 1862, he was married to Miss Mary Jane Claycomb, daughter of Grayson and Elizabeth Claycomb. To this union were born the following children: William Gibson, of Holt; and Mrs. Chas. Hammond and Elijah and Larkin Gibson, of this city.

On coming to this city Mr. Gibson entered the hotel business, in connection with the timber business, and was actively engaged in both until his last illness. About four years ago Elijah Gibson became his partner in the timber business, the firm being styled Gibson & Sons. More recently Larkin Gibson became a member of the firm, the name of which was changed to Gibson & Sons. The firm has dealt extensively in all kinds of timber in this and surrounding counties. As a side business, Elijah Gibson has had the agency in Brecklenridge and Hancock counties of the Standard Oil company.

Besides his wife and four children, Mr. Gibson is survived by one brother, John Gibson, of near Webster, and three sisters, Mrs. Jas. Shaw, Mrs. Amos Corley and Mrs. Helen Compton, of Haterfield.

Mr. Gibson stood well in business circles and was a man with a large acquaintance. He was a member of the Baptist church, with which he united forty-five years ago.

The funeral was conducted from the Baptist church Thursday afternoon at 2:30 o'clock. Rev. E. B. English, of Ammos, assisted by Rev. P. L. King, officiated. The interment was at the city cemetery. The funeral services were largely attended.

CARD OF THANKS.

We wish to thank our friends and neighbors for many acts of kindness and sympathy extended to us during the last illness and at the death of our husband and father, Augustus Gibson. The Family.

A CONVENTION TO BE HELD APRIL 3.

Democratic Committee Meets and
Decides When, Where and How
To Make County Nominations.

Hardinsburg, Ky., March 7. - (Special.) At a meeting of the county committee for the Democratic party, held at the courthouse yesterday, it was decided to call a delegate county convention to be held on Monday, April 3, at this place, for the purpose of nominating a full set of candidates for the various offices, to be voted for at the November election. The precinct meetings to select the delegates to the county convention will be held on Saturday, April 1.

A majority of the committeemen were present, and candidates whose names were on attendance. After the committee decided upon an executive session, and even the prospective candidates were excluded. Hence a detailed report could not be given.

It was remarked by a number of people that it was a peculiar fatality that led the committee to select April 3 as the date to select the precinct delegates. It will be difficult to convince those who look for signs and omens that the selection of this date is not ominous and forbodes defeat for the ticket.

PRIMARY IN MEADE.

Brandenburg, Ky., March 4. - At the Democratic primary in this county to-day Hon. A. C. Thompson was nominated for Representative. W. A. Baskett, County Judge; W. D. Ashcraft, County Clerk; W. H. Hager, Sheriff; Walter Gray, County Attorney; W. B. Arnold, County Superintendent of Schools; Jeff Brown, County Assessor; and E. R. Bondurant, Jailor. One precinct remains to be heard from, but this will not affect the result. Thompson's majority on the face of the returns is about 165. His opponent was D. M. Duncan. The primary was one of the warmest ever held in Meade county, and an unusually large vote was polled. The nominee for Representative is the incumbent of the office, and his re-nomination is in the nature of an endorsement. He is an Administration man.

THOUGHTS.

Much has been given to us and much will rightfully be expected from us. We have duties to others and duties to ourselves, and we can shirk neither. We have become a great nation, forced by the fact of its greatness into relations with the other nations of the earth; and we must behave as becomen a people with such responsibilities. Toward all other nations, large and small, our attitude must be one of cordial and sincere friendship. We must show not only in our words but our deeds that we are earnestly desirous of securing their good will by acting toward them in a spirit of just and generous recognition of all their rights. But justice and generosity in a nation, as in an individual, count most when shown not by the weak, but by the strong. While ever careful to refrain from wronging others we must be no less insistent that we are not wronged ourselves. We wish peace; but we wish the peace of justice, the peace of righteousness. We wish it because we think it is right and not because we are afraid. No weak nation that acts unmanfully and justly should ever have cause to fear us, and no strong power should ever be able to single us out as a subject for insolent aggression. President Roosevelt's Inaugural Address.

ONLY a few days left now in which to make your guess in our U. S. Treasury contest.

The "old postmaster," J. W. Hardin, and his good wife are improving, all of which is good news to their many friends.

The friends of Hon. W. W. Taber, of Havesville, will be sorry to learn of his serious illness of lagrippe and bright's disease.

The News would like to see the spirit of Rooseveltism inaugurated in every town, city and county in this good old state of Kentucky.

We want to warn the Democrats of this county, as well as the Republicans, to put none but sober men on their tickets and to cut whiskey out of their campaign.

The farmers will hold meetings next Saturday in Hardinsburg, Havesville and Ford'sville to take steps to organize and hold their tobacco. At Havesville they will be served with a free dinner. Havesville got this cue from Cloverport.

The Democrats of this county did the proper thing in calling a delegate convention. Old-time Democratic ways are the best, both for the party and the people. Now if they will eliminate the "machine" and let the people have a fair show we may be happy yet.

We announce in this issue Mr. W. J. Hall, of Rockvale, as a candidate for jailer of Breckenridge county, subject to the action of the Republican party. Mr. Hall is a well-known farmer in this county, has had a good deal to do with the public affairs of the county, and so far as we know, has always fulfilled his duties. He is a sober, industrious citizen and worthy to be honored by his party and the people. His claims should receive consideration.

It seems that none of the Democratic aspirants for the office of sheriff of this county want to head the ticket. Better adopt our ticket with one change, viz., Herbert Beard at the head with Charlie Lightfoot and S. W. Bassett as deputies. Herbert Beard is not afraid to tackle the head of it. Here's an equal division and why not name them and give them the field? The sheriff's office ought not to be in politics. This ticket will not suit the politicians but it would be backed by all the good men and women and all the independent voters.

BROTHER NEWSON is a great preacher as well as a great orator. His success lies in his indifference for the opinions of his auditors. He loses self-consciousness and speaks from his heart and personal experience. His religion fairly sparkles from his eyes, his face, his gestures, and in every movement of the man. Religion is in his soul and he don't care who knows it. In fact he wants everybody to know it and take hold of it; and it's a mighty hardened sinner that can resist his pleadings. Everybody in the town is glad of his coming and will be sorry when his time comes to go.

MODEL FARM AT EXPOSITION.

Outdoor Exhibit Will Show Different Varieties of Crops Growing Side By Side

Portland—An experimental garden or model farm where will grow every variety of every different kind of plant which contributes to the food of man or domesticated beasts will be a feature of the Lewis and Clark Exposition which will open at Portland June 1. Growing grasses, forage plants, vegetables, flowers and fruit trees will grow side by side, giving an impressive object lesson to visiting agriculturists.

This novel exhibit will be located in a small canyon which was utilized years ago by Chinamen as a truck garden. The soil is rich and productive, and only practical cultural methods as applied to general farm conditions will be employed in making this live exhibit.

The agriculture section will be devoted to the growing of various crops, including about a dozen varieties of the domestic field pea, three of vetch, alfalfa, two varieties of mangel-wurzel, three of turnips, two of field carrots, rape and kale.

There will be upwards of seventy varieties of vegetables best suited to the climate and soil of the Willamette Valley. The different kinds of vegetables shown will include cabbage, brussels sprouts, cucumbers, onions, celery, corn, melons, peppers, tomatoes, squash, cauliflower, lettuce and hops. There will be grown several varieties of Bouleau bushes, a portion two years of age and the remainder one year to convey an idea as to the growth of hops on Willamette Valley soil at their respective stages.

A number of varieties of choice orchard and small fruits have been planted and many of these although only one year out will be fruiting during the Exposition. One section will be devoted to an exhibit showing the methods employed on the Pacific Coast in training orchard and garden plants. While no one expects to see a fully-grown orchard at an exposition, it will be a novel sight to see a real young one bearing its first crop of fruit, from raspberries and blackberries through currants, gooseberries, quinces, cherries, pears, plums, peaches, apricots and apples. Under the usual climatic conditions the crops should be well advanced and will afford much interest to visitors.

In floriculture there will be various plants filled with over 50 varieties of annual and perennial flowers, including asters, carnations, cosmos, escholtzia, hollyhock, nasturtium, single and double, petunias, verbenas, etc. Centennial Park the natural portion of the Exposition grounds is an exhibit itself of the wealth of trees and flowers which Oregon produces. It was laid out by an experienced landscape artist with a view to making the most of the natural beauty of the site. On the crest of a hill on the south end is a great bed of roses of every variety, which flower bloom all the year round. Extending from this point is a network of roads and paths winding among the grassy slopes, which are thickly dotted with trees and shrubs, both evergreen and deciduous, of 36 varieties, all native to the Oregon country.

BEN HUR.

The Greatest Spectacle of the Century to be Staged in Louisville.

Towering triumphantly as the most massive and picturesque as well as the most impressive dramatic spectacle in the history of the world, "Ben Hur" will seek new honors at Macaulay's Theatre, Louisville, Ky., the week of March 20th. Never before in the history of Louisville amusements has an announcement of a theatrical production created such a sensation, for it means something new to the public to see a dramatic spectacle on the colossal scale of the present production. The scenic settings to be used are those which marked the World's Fair run in St. Louis this past summer and the engagement at the Big Chicago Auditorium. They were imported from the Drury Lane Theatre, London for this season's tour of the play.

"Ben Hur" is a wonderful play. All who have seen it agree that nothing more beautiful, inspiring spiritual and edifying than "The Healing of the Lepers," in the last act has ever been offered on the stage of the American theatre. At this point, this great play is most truly and in a very high sense "Religious." Here the stage seems to have consecrated itself and all its resources to the service of Christianity, and there is nothing that is not replete, beautiful and altogether fitting in its service. This scene and the widely advertised character race in the act preceding, are the great special features of the play which give it much of its wonderful value and extraordinary power.

If the American drama had done absolutely nothing worthy in its long career but this; had its fame to rest solely upon this one noble production.

eternal truth and verity of the birth to the world of Jesus, the Savior of mankind.

To every man, no matter what his conditions, "Ben Hur" has its appeal. It appeals to the deep grained, firm rooted religious feeling in the human heart and brings back with great directness, the simple lessons and divine truths that every man born in a Christian land learned at his mother's knees.

WOMAN SUFFRAGE IN RUSSIA AND DENMARK.
When the four thousand students and professors of the University of St. Petersburg came together in mass meeting, one of the resolutions that they passed unanimously was for a national assembly, to be elected by universal suffrage. Irrespective of sex. Outside of the four States that have woman suffrage, there is no university in America where such a resolution could be passed by a unanimous vote.

Mrs. Katherine Breshkooyko who has been elected to the United States in the interest of the Revolutionary movement said the other day that all the literary and charitable organizations in Russia had a mixed membership of men and women working side by side and that intelligent men believe in giving women absolutely equal rights.

Denmark is also agitating the political liberty of its women. On the occasion of the formation of the new Cabinet the party supporting the government sent out a manifesto in which they say—

"With regard to municipal and political liberty and equality, all should enjoy the same rights irrespective of class and fortune or sex."
Those who have fancied that the demand for woman suffrage was confined to a handful of discontented women in the United States will be surprised to know that the movement has become world wide and is making unexpected headway in the old conservative countries are likely to receive their political rights even before the women of this boasted free Republic.

A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy.

"I can heartily, conscientiously recommend Chamberlain's Cough Remedy for affections of the throat and lungs," says Hon. John S. Hancock, 22d Ward, St. Chicago. "Two years ago during a political campaign, I caught cold after being overexposed, which irritated my throat and I was finally compelled to stop, as I could not speak aloud. In my extremity, a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several doses that day, kept right on taking it through the campaign, and I thank this medicine that I won my seat in the Council." This remedy is for sale by Short & Haynes.

We Did Not Stop to Think.
The amount of energy people sometimes expend in making a bad matter worse is illustrated by the story of a chance encounter in a street car told to the World by a New York man.

It was on a Broadway car, and there were few passengers. A man boarded the car and sat down by my side. His clothing was muddy and torn, and he had a handkerchief wrapped round one hand.

"I guess I am the biggest fool in town," he remarked. "I looked interested, and he continued: "See that our four blocks ahead? Well, I ran a block to overtake it and gave the conductor a dime. He handed me a nickel, which fell from my hand to the street. I yelled for him to stop the car. He did not do it, and I jumped off and hunted all equated out like an odd sledge. See my clothes? Well, I jumped did it."

"I asked the man if he found the nickel."
"Oh, yes, I found the nickel, but what good did it do me? I could not overtake the car from which I had jumped, and so I boarded this car and gave the nickel to the conductor. So I skinned my hand, spoiled my clothes and risked my neck just to find that five-cent piece and give it to the street railway."

When we have a "spell" of weather, and wet weather at that, we have only to recall the climatic conditions of Harpersville, in England, in order to be thankful for a little.

The moon has, says a writer in Cornhill, an eternal procession of clouds, indolently varied in form, lighted with white radiance or lowering in gloom, rent, tattered or flimsy, gathering, menacing, creeping round to swallow you in a mist of rain or dropping one of those silvery showers lighted with sunshine from behind.

Of heavier rain there is no lack, and all one can say of the perennially brutal moon is summed up in the verse invented by its enemies:

The south wind always brings us rain. The north wind blows it back again. The west wind surely means wet weather. The east wind wet and cold together.

WOMEN WHO SUFFER

Listen to What Dr. Hartman Proposes to Do For You Without Charge.

Doubtless hundreds of thousands of women all over the United States have seen Dr. Hartman's offer in the papers—how he has undertaken to treat every woman suffering with any form of female disease who will write to him, free of charge.

To those who have not heard of this it may be said that Dr. Hartman is a physician and surgeon of great renown in medical circles, especially in the treatment of those diseases which women alone have to bear.

He has arranged to answer all letters that are sent to him from women troubled with any form of female weakness, free of charge, giving the benefit of knowledge which has cost him forty years to accumulate.

The medicines he prescribes are without the reach of any woman, and she can get them at any drug store.

But he is required to do is to send her name and address, together with her symptoms, duration of sickness and age.

Address Dr. S. B. Hartman, President, of The Hartman Sanitarium, Columbus, Ohio.

Mrs. Senator Roach, of Lancaster, Pa.; Mrs. Senator Warren, of Chicago, Wyo.; Belva Lockwood and Mrs. General Longstreet, of Washington, D. C., are among the prominent ladies who endorse Pe-ru-na.

Miss Helen Roloff, Kaukauna, Wis., writes:

"Several times during the past two years or more my system has been greatly in need of a tonic, and at those times Pe-ru-na has been of great help in building up the system, restoring my appetite and securing peaceful sleep."

Miss Muriel Armitage, 30 Greenwood Ave., Detroit, Mich., District Organizer of the Royal Templars of Temperance, writes as follows:

"I suffered for five years with severe backache, and when weary or worried in the least I had prolonged headache. I am now in perfect health, enjoy life and have no other ache or pain, thanks to Pe-ru-na."—Lucy M. Riley.

If you do not derive prompt and satisfactory results from the use of Pe-ru-na, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

"I suffered for five years with vertigo."

During Hudson river navigation the Albany mail was transmitted by sloops, but in the winter a messenger, as above mentioned, was required, and it is probable that he traveled on foot. The winter average of the eastern and southern mails is given in the same paper and same date as follows:

"On Tuesday the Tenth Instant at 9 o'clock in the forenoon the Boston and Philadelphia Pools set out from New York to perform their stages once a fortnight during the winter months and are to set out at 9 o'clock Tuesday morning. Gentlemen and merchants are desired to bring their letters in time. N. B.—This Gazette will also come forth on Tuesday Mornings during that time."

An Embroked Spell.

When we have a "spell" of weather, and wet weather at that, we have only to recall the climatic conditions of Harpersville, in England, in order to be thankful for a little.

The moon has, says a writer in Cornhill, an eternal procession of clouds, indolently varied in form, lighted with white radiance or lowering in gloom, rent, tattered or flimsy, gathering, menacing, creeping round to swallow you in a mist of rain or dropping one of those silvery showers lighted with sunshine from behind.

POSSIBLE CANDIDATE.

Harpersburg, Ky., March 7.—(Special.)—Hubert Bruener, of Union Star, is a possible candidate for deputy sheriff, on the Democratic ticket. Mr. Bruener is a good man, would make a good officer, and would add strength to that ticket.

NO POLICE COURT.

The case of Price Ray, charged with conducting a public auction without a license, has been continued in police court on account of the continued illness of Judge Wills. There was no police court last week or this week.

Life Guards.

The Life Guards are two regiments of cavalry forming part of the British household troops. They are gallant soldiers, and every loyal British heart is proud of them. Not only the King's household, but yours, ours, everybody's should have its life guards.

The need of them is especially great when the greatest foes of life, disease, cold, influenza, catarrh, the grip, and pneumonia do in the stormy month of March. The best way that we know of to guard against these diseases is to strengthen the system with Hood's Sarsaparilla—the greatest of all life guards. It removes the conditions in which these diseases make their most successful attack, gives right tone to all the vital organs and functions, and imparts a genial warmth to the blood. Remember the weaker the system the greater the exposure to disease. Hood's Sarsaparilla makes the system strong.
